

DETERMINATION FOR LOSS ON IGNITION OF CEMENT
[As per IS: 4032: 1985 RA 2019]

Lab Job No.: _____

DATE: (i) Sample Received: _____

Sample Code No: _____

(ii) Sample Tested: _____

Lab Temp: _____

Type of sample

Observations:

S.No.	Weight of Sample (W) (g)	Weight of platinum crucible (g)	Weight of platinum crucible + sample after ignition	Weight after second ignition	Percent loss on ignition = loss in weight x 100
1					
2					

Average of Loss on Ignition
